DETAILED ACTION

Allowable Subject Matter

1. Claims 1-15 are allowed.
2. The following is an examiner's statement of reasons for allowance:

After carefully reviewed the Applicant's arguments 11/04/05, and updated prior art of record, the Examiner finds that the Applicant's arguments and newly added limitations are reasonable and strongly persuasive. Therefore, they place the application in condition for allowance. The primary reason for the indication of the allowability of the above claims is the inclusion therein, in combination as currently claimed as a whole, of the limitation of the use of the card including the ground member connected to the ground conductor portion of the circuit substrate and is externally exposed, and the inner side of the conductive external panel contacts an outside of the conductive shell on the perimeter of the external conductor, and the elastic conductive member contacts the conductive expenal panel and the ground portion of the circuit substrate, and the tips of the hook portions having an interval shorter than the width of the frame. This limitation is found in the above claims and is neither disclosed nor taught by the prior art of record, alone or in combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
